

Borg Brückner Internship 2017 Design & Interior Architecture

Borg Brückner

Borg Brückner was founded in 2015 by MA Industrial Design graduates Oliver Borg von Bülow and Laurits Brückner Jensen. Our projects range in scale from small toys and furniture to large scale architecture & interior projects.

Recent clients include: AIAIAI, Aiayu, Aviendo, Birger Christensen, CPH Studio Hotel, Frama, Sonny and Rezet Sneaker Store.

Internship

As an intern at Borg Brückner tasks will include research, design development, 3D drawing, technical drawings, building prototypes and taking part in client meetings.

It is a unique possibility to experience the challenges and opportunities of being self-employed and founding a studio as a young professional designer.

We take your input seriously, and you can expect to leave a mark on the projects you are working on.

As a person, you should never be afraid to ask questions, but at the same time be able to work on your own.

The position is unpaid and should be part of your education or "virksomhedspraktik".

Deadline

Interviews are being held as applications come in.

Contact

Please send CV and portfolio to job@borgbruckner.dk
